Gladioli

The Glory of the Garden

THE IMPROVED GLADIOLUS is one of the most beautiful of the summer blooming flowers, and it is so easily grown as to be within the reach of everyone. This flower is becoming more and more of a favorite each year because of the remarkable improvements in size and delicate colorings, rivaled only in the tropical orchids. There is a touch of grandeur and magnificence about it that places it in a distinguished class. It is easily grown and may be had in bloom nearly four months in the year in the northern climate without the aid of glass. It possesses a combination of characteristics that appeals to all flower lovers.

We offer many of the choicest and most wonderful Gladioli to be had. From our large list of named varieties everyone can find some color to suit his taste, and by planting bulbs every two weeks from early Spring to July a continual supply of blooms may be had until frost. Invest a few dollars in Gladiolus bulbs this year, for in no other way can you purchase so much pleasure.

Price List

AMERICA. Delicate lavender-pink flowers of large size on strong stems. A fine cut flower. 5c each; 50c per doz.
